# History and development

1992 - Opening of Kokshetau Higher College of Management and Entrepreneurship.

1995 - First visit of our students to the United States, exchange of teachers with colleagues from the United States.

1998 - Opening of new specialties, conversion of College to Kokshetau Institute of Economics and Management, discovery of the first in North Kazakhstan Master's degree in "Economy".

1999 - Opening of the first in North Kazakhstan training in reduced educational programs.

2004 - Introduction of credit system in education.

2007 - First place in the ranking among the universities of the region according to a poll among 350 respondents 17 higher and secondary vocational institutions of the region for the quality of educational services.

2011 - Kokshetau Institute of Economics and Management is transformed into a Humanitarian and technical academy.

2013 - Academy was registered educational activities in information system "E-Licensing". Academy has successfully passed the fourth state certification.

## Academic staff

Academic staff of the Academy is one of the highly qualified among universities of Northern Kazakhstan. In the Academy works Honorary Citizen of the city of Kokshetau, Holders of "Honored Worker of Education of the Republic of Kazakhstan", Owners of a sign "For the development of science of the Republic of Kazakhstan", 5 academicians, 7 doctors and professors, 35 candidates of sciences and associate professors, 20 masters of science. Leading scientists of the Academy - doctors of economic sciences, professors and Ph.D. are known for their scientific work not only in Kazakhstan, but also abroad. Over the past three years, heads of departments and more than 50 Academy teachers improved their skills in leading universities of Kazakhstan and CIS countries.

# Achievements

GTA - three levels of education in achievement of success: humanitarian-technical college, academy and magistracy. At present Academy provides education for eleven undergraduate and graduate programs.

Academy produced release on 18 full-time and 15 correspondence courses, 13 - in the magistracy. The number of graduates over the years has exceeded 5 700.

Our graduates are working successfully in various sectors of the national economy: companies, banks, etc. They are heading state structures of different scales, large enterprises and firms.

The founder of the Academy Mr. Park V.Y. provides support for the funding of social measures and assistance to low-income, active and talented students (an excellent study, participation in social life). Every year more than 300 students receive a discount in tuition fees; grants are provided for free education.
